

The Craun-Liebing Company

Manufacturer's Representatives & Distributors... Since 1922

Line Sheet

Mr. A Randall Keefe
President

Mr. Adrian R. Keefe
Treasurer

Mr. Shawn W. Beres, P.E.
Secretary

Mr. Ed Zalar
Engineering Sales

THE GORMAN-RUPP COMPANY

Packaged pumping stations for municipal wastewater and water applications, T-Series self-priming pumps, non-clog submersibles, engine driven pumps, trash, pumps, priming assist pumps, air diaphragm pumps, Auto-Start sewage pump stations for standby power applications. Custom designed packaged and liquid level controls.

ENVIRONMENT ONE CORPORATION (E/ONE)

Packaged PD type grinder sewage pumping stations for small flows and low pressure sewer systems.

SPX COOLING TECHNOLOGIES

Leader in the design, manufacture and application of evaporative cooling towers, engineered materials and control systems for HVAC, industrial and power applications. Ozone Water Treatment. Evaporative Cooling Towers for HVAC, Power Plants and Industry, Ozone water treatment-Environmentally Friendly, 20 Models-Factory Assembled, Steel, Fiberglass, Wood, Masonry, and Concrete cooling

CUTLER-HAMMER of EATON CORP.

Complete line of Variable Frequency Drives (V.F.D.) for HVAC and Industrial Cooling Tower Applications

Cutler-Hammer

PAUL MUELLER COMPANY

Production and application engineering for plate and frame heat exchangers for use in industrial process and HVAC heat transfer applications.

PROCESS EFFICIENCY PRODUCTS, INC. (PEP)

Cooling tower water filtration (cartridge, sand, activated carbon, cyclone).

RECOLD, INC.

Complete line of evaporative closed circuit fluid coolers, condensers, and open towers with engineered control systems for use in process, refrigeration and HVAC applications.

M-D PNEUMATICS

Rotary positive displacement blowers, heavy-duty, high pressure, and vacuum boosters/pumps in stock.

Serving Northern Ohio with: Sales, service, parts, inventory, rebuilding, trouble-shooting, installation, packaged assembly, ceramic coating, custom fabrication, startup/instruction services, technical seminars. Sales Engineers and field staff will assist you in solving your pumping, wastewater, water treatment and water cooling.
