

GORMAN-RUPP ACADEMY

Empowering Excellence

The Pump People®

EMPOWERING EXCELLENCE THROUGH COMPLETE TRAINING SOLUTIONS

The mission of the Gorman-Rupp Academy is to increase organizational effectiveness by promoting and supporting customer development through high-quality educational training resources and programs. Our programs are designed to meet distributor and end-user needs and objectives, and to promote individual learning and development to build stronger business relationships.

For any organization to maintain its viability in a highly competitive market, a solid training program is essential. Gorman-Rupp understands the value of maintaining its industry-leading expertise, as well as advancing the knowledge and experience of its distributors and end-users. A successful training program enhances this expertise and promotes continuity as organizations change.

At Gorman-Rupp, a culture of excellence is the cornerstone of our people and processes, as well as the basis of all business decisions. Connecting you with the tools and resources you need, Gorman-Rupp Academy will enhance your knowledge while preparing you for what may lie ahead by providing an environment that fosters the excellence that has made Gorman-Rupp successful for nearly a century.

State-of-the-art equipment built in state-of-the-art facilities

End-user Education & Training

Gorman-Rupp training programs assist plant operators, reliability specialists, engineers and maintenance personnel by enriching their understanding of flow management systems. Training programs from the academy are ideal for organizations seeking to enhance workforce competency. Whether basic or customized programs are required, G-R Academy offers a world-class network of training experts and facilities to accommodate any need.

Tuned to Meet Audience Needs

Working with clients of various sizes and disciplines, G-R Academy can assess learning needs, discuss training options and determine the best educational plan for client organizations. Goals can then be achieved through a tailored program.

Dependent on specific topics covered and the desired length of the program, some curriculum may be certified for continuing education units (CEU) or professional development hours (PDH) for maintenance staff, operators, consultants or engineers.

The vision of Gorman-Rupp Academy is to continuously improve the knowledge and skills of employee staff, distribution and end-users by providing cohesive education and development programs employing the newest technologies and innovative learning concepts.

For more than 80 years, Gorman-Rupp has provided pumping products for the mining, oil and gas, petroleum, industrial, construction, municipal, wastewater, government, agricultural and OEM markets. Over the years, our continued growth has focused on superior pump design and engineering. As a result, we've become a company known for market innovations and improvements that continue to set the standards for the pump industry.

Gorman-Rupp has an experienced staff of engineers dedicated to the design and manufacturing of the most efficient and serviceable pumps in the oil and gas industry. Our extensive distributor network can provide additional resources to help with selection of pumps and related equipment for specific applications. And, they have trained service personnel on hand in case you ever have a service request.

Designed and engineered to exacting standards, Gorman-Rupp has over 3,000 pump models to meet all of your fluid-handling needs. Whether your pumping application involves clean water, large solids, extreme pressure or high flow, Gorman-Rupp has the solution to all your pumping needs.

In-house Solutions

With a variety of hydraulic training assets at our disposal, Gorman-Rupp Academy offers a variety of educational programs in house at many of our facilities around the world, including the United States, Canada, Europe, Asia and South Africa.

On-site Solutions

When you need training for an entire team, a private program is a great solution. Our team can come to you and deliver a curriculum tailored to your specific needs. As these sessions can vary substantially depending on the overall group's requirements, please contact us to discuss the details.

eBusiness & Web Solutions

Online programs and a variety of product and application materials are available in interactive and video formats by logging onto our websites and other electronic portals.

ENABLING LEARNING FOR PEOPLE AS INDIVIDUALS

Does a customer remember a product or a person? Gorman-Rupp believes it's the people that matter, and this belief has been an essential element in the sustained success of the organization. At Gorman-Rupp Academy we nurture and build on these relationships by providing an environment that enthusiastically supports learning.
